Product description

Socket for LED, 3mm, L2:8mm

This socket is specially designed for LED diodes with a diameter of 3 mm. It is ideal for use in electronics projects where precise and secure fixing of the LEDs is required. The socket is made of high-quality chrome and brass, which ensures durability and excellent conductivity.

Features at a glance

- Compatible with LED diodes with a diameter of 3 mm - Perfect for standard LEDs.
- High quality chrome plating material - Provides extra durability and protection against corrosion.
- Concave LED socket type - Ensures secure and firm mounting of LEDs.

Technical data

- LED diode diameter: 3 mm
- Coating material: Chrome
- Material: Brass
- LED socket type: concave
- Dimension L1: 3.9 mm
- Dimension D1: 5.7 mm
- Dimension D2: 6.3 mm
- Dimension L2: 8 mm

Scope of delivery

- 1x LED socket, 3mm, L2:8mm
